PROFILE

Fourth-year BSIT student and web and mobile developer seeking an internship to apply my skills, gain real-world experience, and grow as a developer. Experienced in building web and mobile applications with React, Next.js, React Native, Node.js, and PostgreSQL, including a geolocation-based emergency coordination system for my capstone.

EDUCATION

CORDOVA PUBLIC COLLEGE — Cordova, Cebu
Bachelor of Science in Information Technology (4th Year) — Expected 2027

- Capstone: CORDOVA RISKQ, a geolocation-based emergency and assistance coordination system

CORDOVA NATIONAL HIGH SCHOOL — Cordova, Cebu
Information and Communications Technology (ICT) — 2016 – 2020

PROJECTS

CORDOVA RISKQ (Academic Capstone) — Jul 2026 – Oct 2026
Web and Mobile Developer — React Native, Expo, Next.js, Express, PostgreSQL

- Co-developed a geolocation-based emergency and assistance coordination system for Cordova, Cebu: an Android app for citizens and responders, a real-time REST API, an admin dashboard, and a public download website.
- Built live GPS tracking and routing for responders, slide-to-resolve incidents, alarms, photo reports, and an SOS flow that explains failed sends and offers emergency calls in the React Native (Expo) app.
- Implemented email OTP sign-up and 6-digit password reset, barangay-scoped alerts, automatic escalation of unanswered incidents after 2 minutes, Cloudinary uploads, push notifications, and rate limiting in the Express, Prisma, and PostgreSQL backend.
- Built admin dashboard features in Next.js and Socket.IO (live incident map, responder assignment by barangay, real-time audit log) and shipped the public download website solo; 221 commits across 4 repositories, top contributor to the API and dashboard.

KRAMZ PADDLEFORGE (Court Booking Platform) — Oct 2026

- Built a court booking platform for an outdoor pickleball venue: customers book Left or Right court slots and pay by cash or GCash, while the owner and staff confirm requests from a console that shares the same live schedule.
- Tech: Next.js, React, Tailwind CSS, Node.js, Express, PostgreSQL (Neon). Live: kramzzpickle.vercel.app

SKOLARLY (AI Study Companion, Team Project) — 2026

- Contributed to the Next.js frontend and the Express and Prisma backend of an AI study app that explains lessons, generates quizzes with adjustable difficulty, and provides an AI tutor using the Gemini API.

ENTERPRISE NETWORK TROUBLESHOOTING (Cisco Packet Tracer) — Oct 2026

- Diagnosed and repaired configuration errors in a simulated enterprise network in Cisco Packet Tracer, configuring network devices and access, and verified IP and DNS connectivity between hosts with ping.

EXPERIENCE

FREELANCE — Cebu, Philippines
Web Developer — 2025 – Present

- Design and build responsive websites and web applications independently.

STUDENT WEB PROJECTS, CORDOVA PUBLIC COLLEGE — Cordova, Cebu
Student Developer — 2023 – 2024

- Built reusable React components with props and list rendering, a React e-commerce app using the DummyJSON API with search, filters, and a cart, and a profile page designed in Figma.

ADDITIONAL

Technical Skills: JavaScript, TypeScript, PHP, SQL, HTML, CSS; React, Next.js, Tailwind CSS; React Native, Expo; Node.js, Express.js, Laravel, REST APIs, Socket.IO; PostgreSQL, MySQL, Prisma; Git, GitHub, Vercel, Figma, Cloudinary

Networking: Cisco Packet Tracer; network device configuration, IP addressing, DNS, connectivity troubleshooting

Certifications: Web Design, TESDA

Languages: English, Filipino, Cebuano
